indefinite
frequency”

4 Extra Grammar

Some adverbs (for example, always, also, probably) go with the verb in the middle of a sentence:

- Helen **always drives** to work.
- We were feeling very tired and we **were also** hungry.
- The concert **will probably be cancelled**.

If the verb is one word (drives/fell/cooked/etc.), the adverb usually goes before the verb:

- I cleaned the house and **also cooked** the dinner. (not cooked also)
- Lucy **hardly ever watches** television and **rarely reads** newspapers.
- ‘Shall I give you my address?’ ‘No, I **already have** it.’

MONSTERS UNIVERSITY

Monsters University is a comedy movie by Pixar, and now you can watch it on DVD! The characters in Monsters University are funny monsters. They're 3D computer animations, but real actors play their voices.

In the movie, Mike is a six-year-old monster. He lives in the monster world. One day, he visits a company called Monsters Inc. Lots of monsters work there. The monsters visit the human world at night. They scare children and they use the children's screams to make energy! Mike wants to be a scary monster when he grows up. When Mike is a teenager, he goes to Monster University to learn how to be scary. He meets Sulley, but they are not friends at first. Sulley is very good at scaring people, but Mike is not very scary at all. One day, Mike and Sulley go to the human world and they can't get back. They work together, and finally go home to the monster world. Now Mike and Sulley are friends. They get jobs at Monsters Inc., and they have fun working together.

Here are some facts about Monster University:

- The sound-effect for Sulley's major roar towards the end of the film was made using a blend of tiger, bear, and human.
- The address on mature student Don's business card is shown as 1200 Dark Avenue, a reference to the address of Pixar's Emeryville campus, which is located at 1200 Park Avenue.
- There are an average of 3.7 eyes per monster character on campus.

- The monster designers delineated 6 basic species of monster, then made them distinctive with the addition of limbs, horns, eyes, and wings.

- There are well over 400 characters in the film, and an average of 25 in each shot, making it Pixar's most populated picture to date.
- Each frame of the film took an average of 29 hours to render, and were one single computer with one single processor to try to render the film, it would take it over 10,000 years.

Monsters University is very funny, and the actors' voices are fantastic. There's lots of cool music in the film, too. I love the song "Monsters University." The monsters are terrible singers, but the song is great!

Monsters University is lots of fun. Don't miss it!
