...of the franchise, which began with the 1978 film *Star Wars* and quickly became a worldwide pop-culture phenomenon. The franchise has since expanded into various films and other media, including television series, video games, novels, comic books, theme park attractions, and musicals, among many other entertainment-related activities. In 2020, its total value was estimated at \$15.75 billion, and it is currently the fifth-highest-grossing media franchise of all time. The original film (*Star Wars*), retrospectively subtitled *Episode I: A New Hope* (1977), was followed by the sequels *Episode II: The Attack on克隆星* (2002) and *Episode III: Revenge of the Sith* (2005), forming the original Star Wars trilogy. It was followed by the prequel series to deal a prequel trilogy consisting of *Episode IV: The Phantom Menace* (1999), *Episode V: The Clone Wars* (2002), and *Episode VI: Return of the Jedi* (2005). In 2013, Lucas sold his production company, Skywalker Studios, retaining his ownership of the franchise. This led to a sequel trilogy, consisting of *Episode VII: The Force Awakens* (2015), *Episode VIII: The Last Jedi* (2017), and *Episode IX: The Rise of Skywalker* (2019). All nine films of the " Skywalker Saga" were marketed for *Star Wars*, with some prior to the first two releases. Together with the original live action "trilogy", *Star Wars* has grossed over \$10 billion, making it the highest-grossing film franchise of all time. Additionally, approximately 100 *Star Wars* novels, comic books, and other media have been published for the franchise, including the *Star Wars* Expanded Universe, which has since been rebranded as *Star Wars Legends*.
